

*Make sure your drivers are prepared for all their on-the-road expenses with the help of T-Chek's Express Cash™. It's one more way you can take care of your valued employees.*

**Express Cash™**

**Build driver loyalty by taking care of your employees when they're out on the road.**

Life on the road is never easy, and it's never predictable. That's why it helps many drivers to have cash on hand to take care of routine expenses and emergencies that may come up. Instead of sending them on a hunt for a special cash machine that may charge outrageous rates, you can advance cash to them at the location that makes the most sense on their route. T-Chek Express Cash™ can be obtained at thousands of locations across North America, including truck stops, banks, weigh stations, and repair shops. That makes it fast and easy for your drivers to get what they need and stay on the road.

T-Chek express codes are available by Web, paper codes, or as data files. The codes are sent to you in "inactive" status. They can only be activated by an authorized individual in your company, with an assigned personal ID number. For added flexibility and convenience, you can place a hold on uncashed funds or reactivate funds anytime via the Web or by calling T-Chek 24-hour customer service line. With Express Cash™, your business runs smoothly both at home and on the road.

T-Chek understands the needs of transportation professionals, and has developed Express Cash™ to help them operate their businesses effectively and profitably. This service is easy for drivers to use wherever the road takes them, and it's connected with T-Chek reporting, analysis, and management tools, giving you full control and a bird's-eye view of drivers' activities on the road.

It works easily: drivers present the express code number to cashing locations, authorization and verification is obtained, and the cash advance is released with the driver's signature on the invoice or T-Chek draft. T-Chek Express Cash™ allows drivers to get cash for purchases at truck stops, banks, weigh stations, motels, c-stores, repair shops, and more, through paper or electronic express codes. When you can easily advance cash to your drivers, you help build driver loyalty. Drivers that enjoy working for your company invest themselves in your business, and are essential to helping your company remain strong.

Get Express Cash™ working for your business today.
